

Student Council President, president of the National Independent Black Student Union, and project manager on FIFA Super Soccer, a FIFA-licensed Roblox game with more than 1.5 billion visits. I build the websites and tools underneath the things I lead, and I plan to study business and management.

LEADERSHIP AND COMMUNITY

Student Council President Warren Township High School · Class of 2027	Designed, built and run wths2027.com, the class website for senior year: events with RSVPs, announcements, gallery, senior spotlights, directory and an admin dashboard with roles. First month: 1,101 visits, 1,860 page views. Manage the class Instagram (@2027wths, 72,000+ views) and senior events.
National Independent Black Student Union President · grades 10–12	Independent union drawing students from four Lake County districts. Planned and ran more than sixty events, including kickoffs in rented venues and meetings where state representatives and senators spoke to students.
Juneteenth Lake County Volunteer manager · 2024	Coordinated volunteers and helped vendors set up at the Greater Waukegan Development Coalition's three-day festival, its first year at Foss Park, North Chicago.

BUSINESS AND TECHNOLOGY

Playverse · FIFA Super Soccer Project manager · about 12 hrs/week	Run priorities, calendar, brand, social channels and partnerships for a FIFA-licensed Roblox football game: 1.5 billion+ visits, studio groups of 4.3 million and 1.9 million members. Grew the studio's X account to 130,000 followers.
AVNT Founder · designer · developer	Founded a brand supporting online project teams and built its systems: an operations dashboard (Next.js, PostgreSQL), a public website with a content system, and a Discord bot with a natural-language operations layer.
Royal Vault Design and full-stack development	A private encrypted messaging and file app for two people: Node.js, Socket.IO, PostgreSQL, media pipeline, password manager, and a Capacitor iOS shell with Face ID.
